

22556VIC Course in the Management of Asthma Risks and and Emergencies in the Workplace

Course Information:

- This course is an approved asthma management course by the Australian Children’s Education & Care Quality Authority ACECQA, and is accredited by DEECD. It supersedes course code 22024VIC.
- There are no pre-requisites for entry to this first aid course. However, there is a requirement to complete theory prior to attending your class.
- This course is designed to train participants to deal with asthma attacks in a range of situations including childcare centres, schools, public places, workplace and sporting events.
- This course is highly recommended to anyone working or caring for children or those at high risk to asthma

Award Issued:

- Participants assessed as being competent in all assessments will receive a **Statement of Attainment** in **22556VIC Course in the Management of Asthma Risks and Emergencies in the Workplace**

Course Requirements:

- All clients completing this course must have moderate English. All clients will need to complete a few scenarios at the beginning of the class to ensure effective communication.

Course Duration:

- 1.5 hours express assessment at your workplace.
- 1-2 hours pre-course online home study is required.

Training Delivery:

- In your practical component you will need to complete a theory test (all multiple choice questions) and practical exercises, you will be assessed by your trainer and have to be marked as competent to pass for your qualification.
- Pre-course theory must be completed prior to attending your class. Failure to complete theory may result in exclusion from the course and forfeiture of fees.

Practical exercises are completed in groups or pairs, where possible we try to pair the same gender however there may be times when you are required to be paired with the opposite gender.
